

Johnson Controls recruiting for a highly motivated Machine Operator.

This position will work with a team to safely produce quality battery grids which involves the ability to troubleshoot, multi-task, and work with others.

Those with strong work history with previous manufacturing and mechanical background will be given preference. Full job description listed online. This position is for nights, working 6:45 pm to 7:15 am 3 to 4 days a week. Must be willing and able to work overtime as needed.

- **Earning approximately \$20/hr. on completion of training (90 days); starting wage is \$15.80.**
- Paid weekly
- Our 2-2-3 schedule requires working a 12 hr. shift; working 3 to 4 days a week.
- Operators work 15 days/month and additional days based on overtime requirements.
- The 4 day work week provides 10 hours of overtime automatically boosting your overall income.
- Team Members start with 2 weeks of vacation (prorated after Jan. 1st, based on start date).
- Receive 12 paid holidays/year.
- Benefits (medical, dental, vision, 401K) that start on your first day of employment.
- Tuition reimbursement available after 1 yr. of employment

This schedule provides more hours in a year, therefore more earnings in a year, while working less days in a year compared to the traditional 5 days a week schedule. This work schedule could provide a better work/life balance for you. Apply today so we can discuss the details further.
